

Enhances the biodegradation of plastic trash bags to **over 74% in three years** when disposed in a biologically active landfill.*

BioFlex Technology from Aluf Plastics is the latest innovation to be added to our portfolio of sustainable products.

In an effort to combat the inherent environmental concern about the production and disposal of plastic products into the waste stream, BioFlex technology is a brand of additives which enhance the biodegradation of plastic trash bags in a biologically active landfill.*

*not available in all areas.

Tough enough for any trash, without trashing our planet.
