

WHEN STRENGTH MATTERS, ONLY ONE BAG STAYS STANDING...

HOW DO THEY STACK UP				
STANDARD BLACK REPRO TRASH BAGS	GAUGE		COEX SUPERTUFF™ SUSTAINABLE TRASH BAGS	GAUGE
RL-3858XH	1.2 MIL	VS	RCM-3858	1.25 MIL EQ
RL-3858XXH	1.5 MIL		RCM-3858X	1.5 MIL EQ
RL-385820	2 MIL		RCM-3858XXX	2 MIL EQ

Available in multiple sizes from 12 - 60 gallons as well as 4 gauges from 1.25 - 2 MIL Equivalent.

Step into the heavyweight ring with COEX Supertuff™ Bags... engineered to deliver a knockout combination of strength and sustainability. Made with up to 90% recycled materials, including up to 20% post-consumer resin, these 3-ply, Alulene - powered bags offer a lighter weight without sacrificing durability or load strength. Pre-opened for easy use and finished with a virtually leak-proof star seal, Supertuff™ Bags are built to go the distance and win every round.

Benefits

SUSTAINABLE: COEX Supertuff™ Bags are a sustainable alternative to standard Black Repro Bags, made from up to 90% recycled materials.

3-PLY: Uses a tri-laminate process designed to provide a lighter gauge bag without compromising strength, weight bearing load or elasticity.

ALULENE: Made using our proprietary blend, these bags provide superior strength and durability.

EASY OPEN: Our bags are pre-opened to assure they don't stick to each other, resulting in reduced labor time and increased productivity for your team.

LEAK PROOF: COEX Supertuff™ Bags feature a star-sealed bottom, making them virtually leak proof where 8 layers of material come together.

CONVENIENCE: Individually folded or on coreless rolls, packed in convenient dispenser cartons.

ALL OUR BAGS ARE PROUDLY MADE IN THE USA, WITH BOTH STOCK AND CUSTOM OPTIONS AVAILABLE.

WHEN PERFORMANCE MATTERS, COEX SUPERTUFF™ FINISHES THE FIGHT.
