

GET COEX SUPERTUFF™

NOT YOUR AVERAGE GARBAGE BAG

Got Leaks?

Want savings?

Eliminate overhang?

Need sustainability?

Looking for elasticity?

Have odors?

ANTIMICROBIAL | 3-PLY | STAR SEAL

✓ Benefits

SUSTAINABLE: COEX Supertuff™ Bags are a sustainable alternative to standard Black Repro Bags, made from up to 90% recycled materials.

3-PLY: Uses a tri-laminate process designed to provide a lighter gauge bag without compromising strength, weight bearing load or elasticity.

ALULENE: Made using our proprietary blend, these bags provide superior strength and durability.

✓ Include up to 20% post consumer resin

EASY OPEN: Our bags are pre-opened to assure they don't stick to each other, resulting in reduced labor time and increased productivity for your team.

LEAK PROOF: COEX Supertuff™ Bags feature a star-sealed bottom, making them virtually leak proof where 8 layers of material come together.

All our bags are proudly made in the USA, with both stock and custom options available.

COEX Bags come in 3 different options. CXP, VCX, and RCM. Each offer the benefits of our unique COEX material plus some individual benefits.

Item Group	Antimicrobial	3-Ply	Post Consumer	Individually Folded	Roll	SCS Certified
CXP	✓	✓	✓	✓		✓
VCX		✓	✓	✓
